

HYDRANT SYSTEM - CF 3000

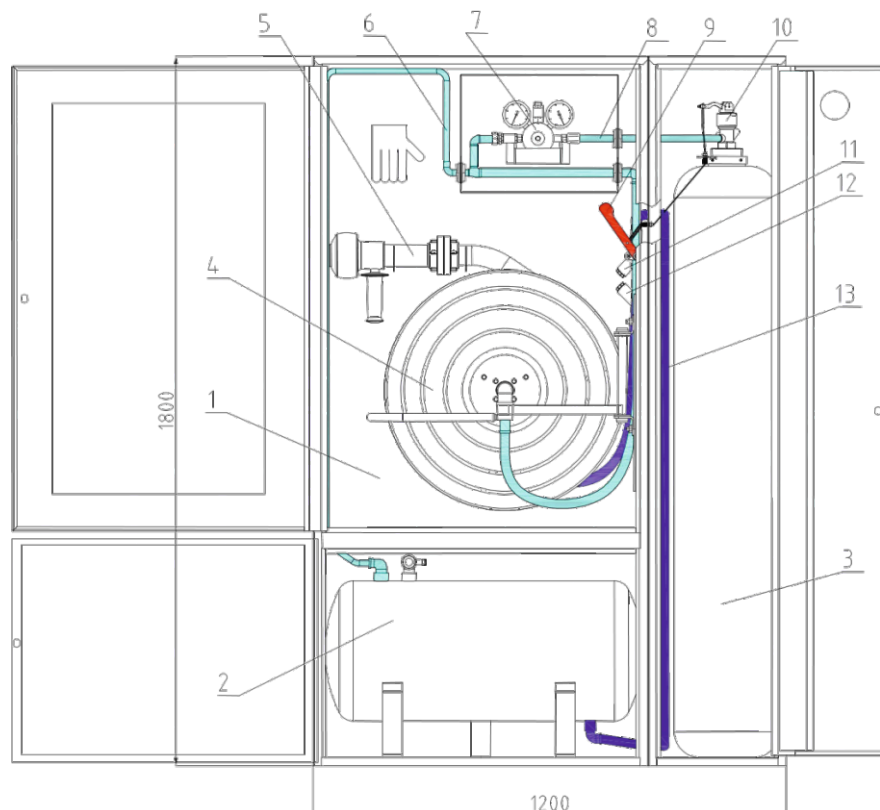

PRODUCT OVERVIEW

When a fire breaks out, external factors such as traffic and construction could prevent fire tenders from making it in time. To beat a fire, you need two important things on your side: quick response time and powerful firefighting equipment that's easily accessible and on the premises.

Ceasefire's CF 3000 is suitable for places with no ready supply of compressed air and water. It features an inbuilt pressure container, water storage, and foam supply unit. Pull out the long hose, activate the device, and instantly be armed with the CF 3000's immense firefighting power.

CF-3000 Self Contained Water mist
Hydrant System
Product code CF-000039

TECHNICAL SPECIFICATIONS

Product Code	UOM	CF-000039
Description	—	CF-3000 Self Contained Water mist Hydrant System
Capacity of Agent	L	60-5%
Overall Dimensions (Length x Width x Height)	MM x MM x MM	1270 x 370 x 1820
Nitrogen Gas Cylinder Capacity	L	70
Nitrogen Gas Pressure	BAR	300
Service Pressure	BAR	7
Type of Operating Mechanism	—	Wheel type
Type of Pressure Gauge	—	Magnetic Bourdon Tube Type
Type of Dis. Fitting & Length	METER	FEN Nozzle gun with 30 meter Hose reel
Throw	METER	7
Min. Discharge Time	SEC.	240
Operating Temperature Range	°C	0°C to +40°C
Applicable to Type of Fire	—	Class A, B, C, F & Electrical Started Fire
Total Weight Of Cabinet and Device	KG	300
Product Warranty	YEAR	1

*v1' Published Date is 30-05-2026.

**Regular R&D and product improvisations may lead to change in product specifications in this data sheet, without any prior notice.
