

# HYDRANT SYSTEM - CF 3000

## PRODUCT OVERVIEW

When a fire breaks out, external factors such as traffic and construction could prevent fire tenders from making it in time. To beat a fire, you need two important things on your side: quick response time and powerful firefighting equipment that's easily accessible and on the premises.

Ceasefire's CF 3000 is suitable for places with no ready supply of compressed air and water. It features an inbuilt pressure container, water storage, and foam supply unit. Pull out the long hose, activate the device, and instantly be armed with the CF 3000's immense firefighting power.
