

## **FOAM-BASED PORTABLE EXTINGUISHERS**

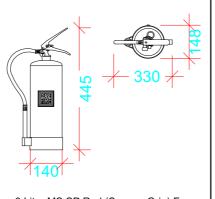

## **PRODUCT OVERVIEW**

Ceasefire's Foam extinguishers use the squeeze grip mechanism, making them faster and easier to use. The proprietary stored pressure technology also delivers high power throw, making these extinguishers extremely effective. The quickest way to kill a fire is to not let it feed off the oxygen in the vicinity. Ceasefire's Foambased extinguishers use a chemical foam that blankets the flames and cuts off the oxygen supply. While they are effective against Class A and B fires, they are ideal for use on burning liquids like oil and petrol.
